

The background of the page features a repeating pattern of seagulls in flight and seashells, rendered in a light, muted green color. The seagulls are shown from various angles, some facing left and some right, with their wings spread. The seashells are scattered throughout the pattern, adding to the coastal theme.

An Exploration of the Pacific North West

Vol. 5

THE Courtney Room

The Courtney Room Bar Program focuses on the Ebbs + Flows of our coastal offerings. We research and create the harmonies of locally foraged ingredients with the intent of showcasing the fresh bounty of our bioregion through the experimentation of our team.

We honour the past traditions of great hotel bars by holding strong roots in classic cocktails, yet continue to push the boundaries through the exploration of our home:

The Pacific Northwest.
